## Air Queen Mascarilla Breeze con filtro de nanofibras (blanca)

### Máscara AIR QUEEN NANO Blanca

+ Sterilized perfume to disinfect hands and masks by 99,9% against viruses.

- When it comes to quality, performance and breathability, the nanofiber filter of AIR QUEEN - offers strong protection with a high efficiency of filtration and ventilation. It is light and is designed ergonomically for a fit and comfort.
- Produced by AIR QUEEN, which specializes in the manufacture of masks: Using a high quality filter created by the innovative technology of the company.
- Recognized internationally for its excellent technical capacity as a manufacturer of nanotechnological textiles.
- Convenient 3D design: The nose to the neck have been completely covered and has been avoided the efficient inhalation of soft dust thanks to the adhesive structure, which shows a great stability when it is worn.

### MÁSCARA AIR QUEEN:

- Three layers of mask nanofilter for protection. Each layer provides a 100% protection against viruses.
- High breathability + High control of humidity + Practical and comfortable for the nose + Convenient elastic loops for the ears + The masks are made in South Korea.
